

End-of-Sale Announcement

Opengear announces the end-of-sale dates for its IP-KVM KVM over IP solution. The last day to order the IP-KVM product is 28th February, 2013. The Opengear Technical Support Team will continue to help customers still using the product until 2014.

The overall market for KVM solutions has faded – as covered in our blog <http://blog.opengear.com/kvm-over-ip-is-qwop>.

However there are still single port products that are functionally compatible with the IP-KVM available on the open market from a number of vendors.
