

End-of-Sale Announcement

Opengear announces the end-of-sale dates for its PortShare solution for Windows. The product has been replaced by the Eltima Serial to Ethernet Connector for Windows. The new Eltima product is a superset of the previous Opengear PortShare solution which is no longer available. The Opengear Technical Support Team will continue to help customers still using the product until 2014.

Opengear has chosen to supply the Eltima product for Windows environments in order to provide more features and regular updates to our customers. PortShare for Linux is still available for download and support.
