

## Product Replacement and EoL Announcement

Opengear announces the end-of-sale and end-of-life (EoL) dates for its IM7200-LA product. The last sale date is May 13<sup>th</sup>, 2016. The Opengear Technical Support Team will continue to help customers still using the product until May 30<sup>th</sup>, 2020. The replacement device IM7200-LMA is available for purchase today.

The EoL of the IM7200-LA is due to the limited availability of the cellular module used in the device. A replacement module is being used but due to the cellular certification process we are required to create a new part number to differentiate between the two cellular modules. Device functionality and pricing remains the same and customers can easily substitute the IM7200-LA with the new IM7200-LMA. The IM7200-LMA is certified to be utilized on the AT&T network.
