

**Job Title:** Scrum Master

**Department:** Engineering

**Reports To:** Development Manager

**Location:** Sandy, Utah

**WHO WE ARE:**

Opengear is a rapidly growing, global supplier of sophisticated data center, network and remote site management products. Our customers include tech unicorns and Fortune 100 companies. We are the leading supplier of out-of-band solutions for IT infrastructure management and are actively exploring new solutions for hyper-scale data center deployment and management. We are a global company, with offices in Brisbane, Australia, Sandy-UT, Edison-NJ, and San Jose-CA.

**WHAT WE OFFER:**

- Challenging software development on our own in-house designed hardware devices
- A collaborative, Agile environment
- Being part of a growing company with in-demand products
- A competitive salary and generous benefits package
- An employee education assistance program to support employees in their ongoing education

**WHAT YOU WILL DO:**

- Support an Agile team building the software of our next generation hardware devices using a servant leadership style and leading by example.
- Work with the Product Owner and the Team to refine the scope of features and maintain the team's backlog
- Facilitate team discussion, decision making, and conflict resolution
- Champion good development practices
- Contribute to the development of the software as a part-time "doer" to help the team achieve its goals

**WHO YOU ARE:**

*Required:*

- BS Degree in Computer Science or Engineering
- MSCS, MSEE or equivalent experience
- Have 3 years+ commercial experience as a Scrum Master / Iteration Manager of an Agile Team working in Scrum
- Have 5 years+ commercial experience in software development on Linux

*Desirable:*

- Computer Networking experience
- Embedded Software Development experience
- Scrum Certification

Applicants must be authorized to work in the USA.

Opengear will provide the successful candidate with a competitive salary and generous benefits package.
