

**Position:** Senior Engineer  
**Department:** Engineering  
**Reports To:** Engineering Manager  
**Job Location:** Brisbane, Australia

### Summary

Opengear designs and manufactures products for data center and remote site management. We are a rapidly growing supplier of sophisticated data center, network and remote site management products. Our customers include tech unicorns and Fortune 100 companies. We are the leading supplier of out-of-band solutions for IT infrastructure management and are actively exploring new solutions for hyper-scale data center deployment and management. We are a global company, with offices in Brisbane - Australia, Sandy-UT, and Edison-NJ.

As a Software Engineer, you will work as a member of an Agile team delivering features for our Lighthouse and NetOps products, which together make up our centralized management and automation platform for IT infrastructure.

### What We Offer:

- Challenging software development on our own in-house designed hardware devices
- A collaborative, Agile environment
- Being part of a growing company with in-demand products
- A competitive salary and generous benefits package
- An employee education assistance program to support employees in their ongoing education

### What You Will Do:

- Work as part of an Agile team building the software of our next generation hardware devices
- Be part of the whole software process, from design right through to testing and deployment
- Champion good development practices and contribute to our continuous test suite by writing high quality automated tests

### Who You Are:

#### Required

- Have at least 3 years' commercial experience in software development with Python on Linux
- Have commercial experience with JavaScript web applications using either Ember.js or React
- Have experience working in an Agile team environment.

#### Bonus

- Experience with networking technologies
- Docker
- Ansible
- AWS and/or Azure
- Go

*Applicants must have the right to work permanently in Australia.*

*Opengear offers a competitive salary and generous benefits package as well as an employee education assistance program to support employees in their ongoing development. We are proud of our great work environment and modern facilities.*
